-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 2/28/2008 have been fully considered but they are not persuasive. Applicants have argued that Ghosh does not disclose the limited genus of new Claim 4, or the specie of new Claim 5. Applicants further add that the reference does not contain the type of disclosure, with the requisite guidance, such that one of ordinary skill would be directed to the presently claimed compounds. This argument is not found persuasive because as stated in the previous office action Ghosh et al clearly taught a genus which embraces the elected species. The compounds were taught as mitochondria protecting agents. Thus one skilled in the art would have been motivated to make the instant claimed elected species with a reasonable expectation that the compound would be useful as a mitochondria protecting agent.

Applicant further argues that there is nothing in the reference that would suggest their antioxidant properties of the instant claimed compounds. This argument is not found persuasive because the claims are not drawn to the use of the compound as antioxidant agents. The claims simply read on whether or not the compounds are novel and unobvious. As the record clearly shows the instant claimed compounds are prima facie obvious.

The rejection is being maintained.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1621

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 4-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over

Ghosh et al. For reasons see previous office action and argument submitted herein.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
